

New York has taken the first definite steps toward building the largest filtration plant in the world. The construction of the plant, and the necessary improvements that will follow, will cost the city about \$8,000,000. With a daily capacity of 400,000,000 gallons, the plant will stretch over approximately 150 acres of ground.

WHO THEY ARE

Something About the Wicked "Pulajanes" in the Philippines

Though the Philippine census fails to disclose the number of "Pulajanes" on the island of Samar, who are now being pursued by the Constabulary under the lead of Governor Curry, in retaliation for the attack on his party recently, it is estimated by officers in the War Department, who have been stationed on the island, that there are not to exceed 2,500 of these people in the mountain fastnesses. They are really only Visayans who have "gone wrong." They are people who were once under Spanish religious influence, but have retrograded into a state of barbarism; have taken to the mountains, and live in large part by preying on the toilers in the agricultural sections. Thus they are like the "Ladrones" in Luzon, and the brigand Moros.

The Spanish Government records mention them as "Talisans," which is said to be the vocal equivalent of the native word "Pulajanes," while the Church denominates them "Remontados," which means a people that have once practiced Christianity and lived by honest labor, but have backslidden.

In the opinion of Army officers, it will be no easy task for Governor Curry to subdue these "Pulajanes," because they are like the American Indians in the "bad lands," and are very much assisted by their women, who travel back and forth into the towns, bringing out supplies of rice and other necessities, despite the watchfulness of the American troops and native guards.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 7c.

Take Hall's Family Pills for constipation.

Take Up Deserted Farms

Technical World.

The New York, New Haven and Hartford is at present engaged in an interesting experiment, which, strictly speaking, is hardly such any longer, as its efforts have been crowned with success from the beginning. The road covers the lower half of New England with an astounding network of lines, and as a result of the opening of the richer lands of the West and South, the men who had been toiling on the impoverished New England farms, small and stony, forsook them, took their families and left New England.

The price of land declined until there came to be many farms that could be bought for \$1 an acre and at last a great number that were entirely abandoned. By reason of the road carrying to and fro Italians who had landed in

New York and wished to go to the cotton mills of Lowell or the shoe shops of Lynn, etc., and Italians who had landed in Boston and wished to go to New York, the news of these abandoned farms came to be noised about among the Italians and they began to take them up. The men would work in the nearest factory and the women and children cultivate the ground.

The Italian is a born irrigator, and now all along the New Haven road can be seen garden-like estates that were abandoned by their previous owners. The road was quick to see the trend of the Italians and is bent on encouraging it. It is probable that a combined agricultural and industrial population of Italians, Poles and Portuguese, aggregating millions in number, will be gained to the territory traversed by the road.

According to advices received in Tokio, 109 persons were killed and twenty-nine injured in the earthquake in the Southern part of the island of Formosa.

Take Hollister's Rocky Mountain Tea this month. Drives away spring tiredness, gives appetite and sleep, makes you well and keeps you well. Great family tonic. 35 cents. Tea or Tablets. J. Jas. Wood & Son.

Thursday, April 26

REMEMBER THIS SHOW WILL BE HERE FOR ONE NIGHT ONLY.

The Hit Everywhere!

GORDON & BENNETT

Present their own company in an artistic and gorgeous production of the beautiful romantic musical drama

A ROYAL SLAVE

By Clarence Bennett, author of "The Holy City." Superbly staged. Beautifully gowned. Prices always the same.

75c, 50c, 35c, 25c.

IT'S TOO GOOD A PROPOSITION TO BE MISSED.

The man who will turn down a publication simply because he considers its rates too high is likely to get stuck with a one-eyed animal at "a very low price" in his first horse trade.—Infant Industry.

The same with Book and Job Printing. The right kind, free from typographical errors, and done by skilled workmen, at Ledger Printery. Work done when promised.

Personal!

I Am Sure That There is Something in This That Will Interest YOU.

A modern, up-to-date, strictly first class 8-room brick residence. One of the most delightful homes in the city. Will require no repairs or additions for the occupancy of the most fastidious.

A third street brick residence of 8 rooms, splendid cellar, and modern in all its appointments. In first class repair, with rear entrance to good stable.

A third street frame residence with large lot, in the aristocratic part of the city, which can be bought at a figure that will justify the purchase.

An 8-room frame dwelling located in Second street, Fifth Ward, with all the modern improvements and good sized lot and convenient in every particular. The one who purchases this will have an up-to-date residence.

A good two-story frame residence located in Forest avenue, in splendid neighborhood, between Commerce and Lexington streets. Price \$1,400.

L. B. Gray's two-story frame residence located in West Second street, with a lot 50 feet front extending back to the C. and O. Railway, at a very low figure.

A very desirable two-story brick residence in West Second street of 8 rooms and bath, with stable in the rear and alley entrance, at a reasonable price.

The Mary A. Styles residence, just East of the residence of Mike Brown, in the Sixth Ward. This is one of the best localities in the city. If you want a good home for a small price you cannot miss it on this.

A good two-story frame residence in Cottage street at the very low figure of \$550.

Some very desirable lots in Riverview Terrace, between the residences of Thomas A. Davis and J. C. Rains. Take a look at them; they are beautiful, and the price is remarkably cheap.

A house of 4 rooms in West Third street, which rents for \$5 per month. You can buy it for \$450, on easy payments.

A good brick residence in West Third street, in splendid state of repair. Price \$3,000.

If nothing in the above list suits you, I would suggest that you permit me to sell you a lot on Forest avenue, or in the Maysville Real Estate Company's Sub-division, just this side of the residence of Mrs. H. H. Collins. It is all the style now to own the house which you occupy. If you wish to work for the benefit of your family, and for the "Honor and Glory of Greater Maysville," and be thoroughly prepared to celebrate "Home-Coming Week" besting your standing in our city, you should not fail to buy a home in order that you may be ready for that event. I will consider it a favor to talk with you with reference to any of the property mentioned above, or to have you make inquiry with reference to anything which you may wish to buy. If you have not the cash, I can arrange the payments to your satisfaction.

JOHN DULEY.

As the result of an earthquake in Formosa last month 1,104 persons were killed, 695 injured and 1,200 houses demolished. The prosperous towns of Daliy, Raishiko and Shinko were completely destroyed. The damage is roughly estimated at \$46,000,000.

BRACELETS

In silver or gold, in plain, engraved or chased, Roman or English finish, with the new secret joint. All the newest styles in chains with fancy stone settings.
COMES—Do not fail to see our new line of Fancy Mounted Back and Side Combs, real and imitation shell and amber in gold and gold filled mountings; beautiful patterns, all new.
ARTISTIC BELLY BELT—The right belt buckle gives an artistic touch to a dress as effective as the handsomest trimming. Buckles in gold and silver, Roman and Egyptian finish, plain or set with stones.

G. O. ASHBURY,
R. F. D. No. 1, Dover, Ky.

APPRECIATED PERFORMANCE

Looked Like the Real Thing and the Company Had to Do It All Over.

The late Joseph Jefferson used to say that his career came very near being nipped in the bud in a small western town, relates Success Magazine. He at that time was a member of a small pioneer company which progressed by means of three "bull teams" from one mining camp to another. They were always heartily received by the miners and cowboys, who readily paid the five dollars in gold required to witness their performance. Mr. Jefferson was the traditional melodramatic villain, and in the third act was supposed to kidnap "the child." The supposed mother, hearing his cries, rushes upon the scene just as he is about to escape, and fires a fruitless shot from a revolver.

Upon this particular occasion all had gone well until this scene was reached, and the audience, many of whom had never before seen any kind of theatrical performance, sat as if spellbound. At the crack of the mother's revolver, however, the spell was rudely broken. "By heaven, she missed him!" a red-shirted miner in the front row shouted, drawing his own "six-shooter" and leaping to his feet. "Round to the back door and head him off 'fore he can git a hoss, boys!" he yelled, and following him, half the audience stampeded for the exit.

The excitement was finally allayed by the "mother" and the villain's appearing hand in hand before the curtain, and the manager's explanation of the situation. When the performance had been concluded, the audience insisted on paying another admission price and having an immediate repetition from beginning to end.

RECESSION OF THE FALLS.

Rate at Which the Niagara Cataract Has Worn Its Way Backward.

The only reliable data that can form a basis for speculation as to the progress of Niagara Falls from Lake Ontario to the present site is found by comparing the two surveys that have been made of the falls, writes Archer Butler Hulbert, in Four-Track News. The first of these was a trigonometrical survey made by Dr. John Hall, nestor of the New York State geological survey. At the suggestion of Sir Charles Lyell, who visited the falls with him, monuments were erected at the points at which the angles were taken in order that some later surveyor would be able to find with accuracy the exact extent of the changes. The second survey was made in 1856 by R. S. Woodward, of the United

States geological survey, now director of the Carnegie institute at Washington. The result surprised the world. Woodward's survey showed that the falls had moved 220 feet since 1842; the rate at the center had been, therefore, five feet per annum; Woodward proved that the tremendous area of five acres of rock had been precipitated from the face of the fall in the half century.
